

Mobile Phone and Electronic Device Use – March 2024

EYFS: 3.1 – 3.8

This policy refers to all electronic devices able to take pictures, record videos, send or receive calls and messages. This includes cameras, mobile telephones, tablets and any recording devices including smartwatches. More and more devices are technically, capable of connecting us to the outside world. We will adapt the policy to include all devices we deem necessary to safeguard children.

Mobile phones and other electronic devices with imaging and sharing capabilities

At **BarBar Nursery** we promote the safety and welfare of all children in our care. We believe our staff should be completely attentive during their hours of working to ensure all children in the nursery receive good quality care and education.

To ensure the safety and well-being of children we do not allow staff to use personal mobile phones or other personal devices with imaging and sharing capabilities. However, on breaks these devices may be used as long as they are not capable of taking photographs, the Bluetooth is turned off and the device is used in the staff room only and not taken into any rooms where children may be present.

We use mobile phones supplied by the nursery only to provide a means of contact in certain circumstances, such as outings.

This policy should be used in conjunction with our online safety and acceptable IT use policies, to ensure children are kept safe when using the nursery devices online.

Staff must adhere to the following:

- Mobile phones or other personal devices with imaging and sharing capabilities are not accessed during your working hours
- Mobile phones or other personal devices with imaging and sharing capabilities can only be used on a designated break and then this must be away from the children
- Mobile phones or other personal devices with imaging and sharing capabilities should be stored safely in staff cabinet in manager's office at all times during the hours of your working day
- No personal device is allowed to be connected to the nursery WIFI at any time – unless this is for a specific work purpose and with the knowledge and consent of the manager- for example an apprentice undertaking a course with their assessor
- The use of nursery devices, such as tablets, must only be used for nursery purposes
- The nursery devices will not have any social media or messaging apps on them
- Any apps downloaded onto nursery devices must be done only by management. This will ensure only age and content appropriate apps are accessible to staff, or children using them
- Passwords/passcodes for nursery devices must not be shared or written down, and will be changed regularly

- During outings, staff only use mobile phones belonging to the nursery wherever possible. Photographs must not be taken of the children on any personal phones or any other personal information storage device. Only nursery owned devices will be used to take photographs or film videos
- Nursery devices will not be taken home with staff and will remain secure at the setting when not in use. If a device is needed to be taken home due to unforeseen circumstances then the person taking this device home must ensure it is securely stored and not accessed by another other individual and returned to nursery as soon as practically possible

Parents' and visitors' use of mobile phones and smartwatches

Whilst we recognise that there may be emergency situations which necessitate the use of a mobile telephone, in order to ensure the safety and welfare of children in our care and share information about the child's day. However, parents are kindly asked to refrain from using their mobile telephones or other personal devices with imaging and sharing capabilities, whilst in the nursery or when collecting or dropping off their children. We will ask any parents using their phone/device inside the nursery premises to finish the call or take the call outside. We do this to ensure all children are safeguarded and the time for dropping off and picking up is a quality handover opportunity where we can share details about your child

We do this to ensure all children are safeguarded and the time for dropping off and picking up is a quality handover opportunity where we can share details about your child.

Visitors are requested to leave their mobile phones or smart watches in the safety of the office where they will be locked away safely.

Parents are requested not to allow their child to wear or bring in devices with imaging and sharing capabilities. This ensures all children are safeguarded and also protects their property as it may get damaged or misplaced at the nursery.

Visitors' use of mobile phones or other personal devices with imaging and sharing capabilities

Visitors are not permitted to use their mobile phones or other personal devices with imaging and sharing capabilities whilst at nursery and are asked to leave them in a safe secure place such as the nursery office for the duration of their visit.

Photographs and videos

We recognise that photographs and video recordings play a part in the life of the nursery. We ensure that any photographs or recordings (including CCTV) taken of children in our nursery are only done with prior written permission from each child's parent and only share photos with parents in a secure manner. We will obtain this permission when each child is registered and update it on a regular basis to ensure that this permission is still valid.

We ask for individual permissions for photographs and video recordings for a range of purposes including: use in the child's learning journey; for display purposes; for promotion materials including our nursery website, brochure and the local press; and for security in

relation to CCTV and the different social media platforms we use. We ensure that parents understand that where their child is also on another child's photograph, but not as the

2

primary person, that may be used in another child's learning journey. Photographs and videos will not be taken in areas where intimate care routines are carried out.

If a parent is not happy about one or more of these uses, we will respect their wishes and find alternative ways of recording their child's play or learning.

Staff are not permitted to take any photographs or recordings of a child on their own personal devices with imaging and sharing capabilities e.g. cameras, mobiles, tablets or smartwatches and may only use those provided by the nursery. The nursery manager will monitor all photographs and recordings to ensure that the parents' wishes are met and children are safeguarded.

Photographs or videos recorded on nursery mobile devices will be transferred to the correct storage device to ensure no images are left on these mobile devices.

Parents and children are not permitted to use any personal devices with imaging and sharing capabilities on the nursery premises without the prior consent of the manager.

During special events, e.g. Christmas or leaving parties, staff may produce group photographs to distribute to parents on request. In this case we will gain individual permission for each child before the event. This will ensure all photographs taken are in line with parental choice. We ask that photos of events such as Christmas parties are not posted on any social media websites/areas without permission from parents of all the children included in the picture.

Applicable for settings using Online Learning Journals only

We use tablets in the rooms to take photos of the children and record these directly on to their electronic learning journeys. We ensure that these devices are used for this purpose only and do not install applications such as social media or messaging sites on to these devices.

We also do routine checks to ensure that emails and text messages (where applicable) have not been sent from these devices and remind staff of the whistleblowing policy if they observe staff not following these safeguarding procedures.
